SOMEDAY, IN THE CALM SEAS...

Original Story: Tanaka Kensuke Afterword

Just the other day, KanColle passed "three years, eight months" of operation.
This spring, we'll be celebrating its fourth anniversary and heading towards a fifth year at sea.
Huge thanks to admirals everywhere, and the readers of this work, for making it possible for us to bring you the KanColle world for so much longer than expected.

It's thanks to everyone that this series was able to follow its journey from its small start with a simple premise to this final volume. To Saitoh-sensei, the editors, and everyone behind this project, I give my thanks.

You could say this is one of several precious stories that helped start KanColle.
Exceeding initial expectations and reaching this third and final volume, this chapter of KanColle has come to a close.
We put our pens down but look forward to meeting in this world again, someday, somewhere.
Thank you for staying with us until the very end
Once more, from the bottom of my heart, thank you.

Surely, we'll see the shipgirls again, in an eternally calm sea..

KanColle Management Naval District,
Development/Operations Supervisor

THANK YOU VERY MUCH!
Someday, in the calm seas!
Special Thanks
